Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-11, 16, and 17 drawn to a use.

Group II, claims 12-15 and 18-20, drawn to a dispersion or wax.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, a special technical feature which these claims share does not define a contribution over the prior art. For example, the claims of Groups I and II share an ethylene copolymer wax as the special technical feature, which is considered to lack novelty or an inventive step in view of Eck et al. (see col. 5 line 6 through col. 7 line 17).

A telephone call was made to Donald Drummond Reg. No. 52,834 on 1/30/08 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
